## PROFILE

As a UX designer with a background in physical therapy and human psychology, I have deep insight into a client's needs and resources while focusing on design solutions that are user-friendly and seamless.

## WORK EXPERIENCE

### FEB 2020 - PRESENT

#### UX Intern, Moblize.it

Worked as an intern on a community app for the parents for children with special needs from scratch, including defining the problem statement, user interviews, persona, user flow and prototyping.

Designed the User Interface and conducted user testing to iterate the design.

### NOV 2020 - PRESENT

#### Student designer, Career Foundry

Intensive 10 month project-based training program with a focus on Design thinking and UX principles.

Developed mobile first designs for an Expert app using various tools from the concept, designing, prototyping to iteration.
